1. The following is an examiner's statement of reasons for allowance: the prior art does not adequately disclose an apparatus for transmitting tire condition comprising a tire condition measuring device, a transmission circuit, a valve stem with magnetic piece, a magnetizing member for magnetizing the piece, the magnetized state of the piece changing according to the position of the member relative with respect to the piece, and a magnetized state detecting device for detecting the magnetized state of the piece, the transmission circuit generating a signal containing magnetized state data and tire condition data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gandhi (857), Achterholt (256) and Fiorletta (135) disclose tire condition sensing devices using magnets.

3. Claims 1-14 are allowed.
